

AMERICANS  
ARE SAFEReports Gov. Curry of Island  
of Samar

## REPORT OF RECENT BATTLE

Half of Constabulary Killed, but "Gained  
a Magnificent Victory"—War of  
Extermination Against  
Fugitives.

Manila, March 26.—An official report has been received today from Governor Curry of Samar, recounting the recent engagement with the Puljanas at Magtaton. This news puts a quietus to the report that he had been killed. Curry says a hard fight occurred, in which Captain Jones of the constabulary lost half his command, but gained a magnificent victory in the fate of odds. The natives treacherously fired while a party was going on under a flag of truce which they displayed. Curry has sent for federal troops and will begin a war of extermination against the fugitives. He reports that Judge Lobiger and the Americans are safe.

## Report of the Fight.

According to advices received Sunday, the recent fight at Magtaton, Samar, between the constabulary and Puljanas, was the result of base treachery on the part of the natives. As a result of the fight, thirty Puljanas were killed and sixteen of the constabulary were killed and wounded.

A despatch received from Captain Jones of the constabulary at Magtaton says that on March 23 Governor Curry, Judge Lobiger and Superintendent of Schools Hoover arrived there and camped over night near the Puljanas. The presence of the officials was made known to the rebellious natives and their leader announced that he would surrender his force the next day.

As a result of this promise the Americans returned to the town of Magtaton, accompanied by Colonel Aguilar, a Puljanas chief.

The next Saturday four chiefs of the Puljanas, with over 100 men and fourteen guns, appeared at Magtaton and lined up in front of the constabulary barracks. Between the barracks and the Puljanas stood the group of American officials.

One of the chiefs expressed a wish that his party be photographed in the act of surrendering, and Superintendent Hoover in compliance with the request was adjusting his camera when the Puljanas leader blew a whistle and gave an order to advance. The entire party of natives thereupon rushed upon the American officials, who escaped to the Magtaton river and swam to the opposite bank.

## STRUCK WHILE PREACHING.

Minister Killed by Lightning at Carson, La., Yesterday.

Carson, La., March 26.—While preaching to his congregation yesterday the Rev. J. B. Lentz, pastor of a Latter Day Saints Church, was struck by lightning, which caused his death within an hour. The bolt descended during a hard thunder storm and was communicated to the preacher by a chandelier hanging directly above his head. The shock threw him to the floor in an unconscious state while many persons in the audience were stunned. After nearly everyone had fled from the building, Lentz was carried out but failed to regain consciousness. The church took fire but the flames were soon extinguished.

## ATTEMPTED KIDNAPPING.

Three Men Made Unsuccessful Attempt to Seize Antonio Bozzini Again.

New York, March 26.—Three men made an attempt last night to again kidnap Antonio Bozzini, the 13-year-old son of an Italian banker, who several weeks ago was spirited away and held captive for three days. Bozzini was standing in front of 330 East 63rd street when the men, who are said to have been Italians, approached him and tried to entice him away. The boy called loudly for help and attracted a policeman, who after a lively chase, succeeded in arresting Vito Calanti, 19 years old. He will be locked up on a charge of being a suspicious person.

## SHOT WIFE ON STREET.

James Matthews Was Immediately Arrested.

Lawrence, Mass., March 26.—Mrs. Sadie Matthews, 22 years old, was shot last night and probably fatally wounded by her husband, James Matthews, while the couple were walking on the street. Matthews was arrested and locked up after he had been knocked down and handled somewhat roughly by bystanders who saw the shooting. He refused to make any statements regarding the cause of his act.

The couple had been married about five months, but it is said that their relations have not been entirely pleasant and that they have not lived together all that time.

## BALL PLAYED DEAD.

Cassidy of Washington American League Team.

Chester, Pa., March 26.—Joseph Cassidy, short stop of the Washington American League baseball club, died at his home in this city yesterday. He had been ill for some weeks with a peculiar disease, which his doctors termed purpura hemorrhagica. A number of specialists, however, did not agree with the diagnosis. Cassidy was 23 years of age and unmarried.

## FOR BLONDIN'S PARDON.

Famous Murder Case in Massachusetts Revisited.

Boston, March 26.—Attorney J. B. D. Jacques, who represented Willard Blondin at the latter's trial for the murder of his wife four years ago, announced yesterday that he would make another effort for a pardon of the prisoner, now serving a life sentence in state prison.

The body of Mrs. Blondin was found in a field at Chelmsford, Mass. Blondin disappeared about that time and was not arrested for more than two years later. At first it was thought that Blondin committed the crime at Chelmsford. Later it was evident that the crime was committed in this city and that the body was sent to Chelmsford in a trunk. Blondin was tried under an indictment returned by a Suffolk county grand jury. He was convicted of murder in the second degree and sentenced to life imprisonment.

Mr. Jacques stated yesterday that he intended to file a petition with the Middlesex superior court asking that the indictment against Blondin, charging murder at Chelmsford, which indictment is still outstanding, be decided void and that later he would ask the governor for a pardon for his client on the ground that new evidence had been discovered relating to the ownership of the trunk, the new claim being that it belonged to another person.

The effort to have the Middlesex county indictment declared void is made because no pardon can be granted while there is still an indictment outstanding.

STEAMER RUN AGROUND  
AND IN FIRE PERIL

The Titian Struck a Rock in Harbor at  
St. John's, N. F., Yesterday—Cargo  
Is Probably Ruined by Fire.

St. John's, N. F., March 26.—After being in peril from fire at sea and manning by desperate efforts to reach this port in the midst of a gale and blizzard, the British freighter steamer Titian struck a submerged rock in entering the harbor Saturday night, had a hole torn in her hull and lies fast on the beach where she was put to prevent sinking.

The fire in the midship hold is still burning fiercely, while in the forehold the water admitted by a jagged cut in the hull has reached a depth of nine feet despite the continuous working of the steam pumps. The Titian is in no serious danger on the beach, but it is probable that before the fire abates she can be extinguished the midship hold will have to be flooded. This will make the work of floating the vessel much more difficult.

It is believed that the greater portion of the cargo has either been burned or ruined by water.

The Titian sailed from New York March 18 for Manchester. Early Saturday she was reported off Cape Sable and endeavoring to make this port. The report created alarm for the safety of the crew, as it was feared that in the storm she would be unable to gain the harbor.

Despite her distress and the thick weather, however, the steamer managed to make the harbor, where she was picked up by a pilot. The ship had barely gotten under way again to proceed to an anchorage when she struck.

At first it was believed the damage was not serious and the fire in the hold still held the attention of the officers when the steamer began to list. The pumps had been working immediately after the vessel struck, but the water steadily gained. In fear of sinking in mid-stream the captain headed the vessel for the shore and ran her fast aground.

## ARRESTED FOR LARCENY.

Police Believe They Have a Member of  
Confidence Men's Gang in Custody.

New York, March 26.—Edward Egkenberger was arrested here yesterday on a charge of grand larceny. He is said to be one of a band of confidence men who have for weeks past been engaged in wholesale robberies of New York, Boston and Philadelphia publishing houses that made a business of selling books on the installment plan. The police say the prisoner has made a partial confession in which he has revealed the names of several of his confederates.

The gang, it is alleged, has been robbing the typewriter concerns in the same way by paying a small sum as the first instalment and then disposing of the goods in second-hand shops. It is estimated that since January 1 the band has obtained more than \$50,000 worth of plunder.

MOTHER AND CHILD DROWNED.

Former Attempted to Save Little Girl at  
Hartford, Conn.

Hartford, Conn., March 26.—Miss Robert Horner and her 13-year-old daughter, Helen L., were drowned in the north branch of Park river, which runs past the rear of the Horner home, yesterday afternoon. The little girl was returning from Sunday school, and intending to take a short cut home, she started across the ice-covered stream, when the ice gave way beneath her. Hearing her screams as she sank, the mother rushed from the house and started across the ice from the opposite bank of the river. She, too, broke through and both were drowned. The bodies were recovered. Mrs. Horner leaves three children and a husband.

## NORTHFIELD'S FIRE LOSS.

Was About \$100,000 For the Past Year;  
Insurance \$7,000.

Northfield, March 26.—The annual report of Fire Chief William Kerr and assistant, Alex. Eddie, shows that the department has expended \$1,004. There have been seven alarms rung in which fire did damage to the amount of about \$10,000. Of this amount about \$7,000 was paid in insurance, there being no insurance on the Lamphier saw mill which was a \$3,000 loss. They state that the department is better equipped than it has been for years, having added one Eastman Deluge set and two Eastman nozzles, 600 feet of hose and two Siamese shut off gates, and four axes.

They recommended, in their report, two new hose carts, 1,200 feet of hose, the hook and ladder truck repaired and hose drying towers in the engine house and rubber coats for the firemen.

VERMONT IS  
GOING AHEADLeads New England States in  
Percentage of Increase

## IN INDUSTRIAL PRODUCTS

Special Census of Past Five Years Shows  
That Percentage of Increase Was  
22.5, With Rhode Island as  
Next in Order.

Washington, D. C., March 26.—The preliminary summary of statistics concerning the manufacturing industries of Vermont, based on the census of manufactures of 1905, has been completed by the bureau of the census, and the result is highly creditable to the Green Mountain state. The census of manufactures was authorized by an act of Congress, approved March 6, 1902, and is taken every five years. This special census differs from a general census in that only manufacturing establishments having products valued at \$500 or more are included in the former, while in a general census all neighborhood industries such as dressmaking, custom millinery, cobbling, blacksmithing, custom sawing and grinding, etc., are included in the total summary. For this reason it is impossible to make a comparison between the census of 1900 and that of 1905, and include every manufacturing establishment in the state, but a comparison between the two on the basis of establishments having an output of \$500 or more shows that during the past five years the percentage of increase in Vermont is greater than in any other New England state with the possible exception of Maine, the summary for this state being incomplete at this time.

The following compilation comparing various features of all the manufacturing establishments having an output of \$500 or more annually as shown by the general census of 1900 and the manufacturing census of 1905 will indicate the general trend of the industries in Vermont.

## General Summary.

Number of establishments, 1900, 10,388; 1905, 14,999; percent of increase, 45.3. Capital invested, 1900, \$42,499,640; 1905, \$62,658,711; percent of increase, 47.4.

Salaried officials, clerks, etc., number employed, 1900, 16,993; 1905, 26,253; percent of increase, 55.1; salaries paid, 1900, \$1,610,114; 1905, \$3,102,708; percent of increase, 92.6.

Wage earners, average number 1900, 28,170; 1905, 33,118; percent of increase, 17.5; wages paid, 1900, \$11,426,548; 1905, \$15,211,059; percent of increase, 33.2.

Miscellaneous expenses, 1900, \$3,444,175; 1905, \$4,823,366; percent of increase, 42.9. Cost of materials used, 1900, \$26,237,146; 1905, \$32,429,552; percent of increase, 23.2. Value of products, 1900, \$51,515,228; 1905, \$62,658,711; percent of increase, 21.5. A fair comparison between the above showing and that for other years cannot be made, for the reason that all statistics heretofore compiled are taken from the general census reports, made but once in ten years, while the summary now at hand is the one ever made between regular census periods. For this reason previous records are of little value in making comparisons, because statistics covering any previous five-year period are not available. The record is interesting, however, and the percent of increase or decrease in the value of manufactured goods for ten-year periods from 1870 to 1900 is given herewith: 1870 to 1880, 70.8; 1880 to 1890, 119.0; 1890 to 1900, (decrease) 18.7; 1890 to 1900, 22.3; 1880 to 1900, 50.4.

The record for the decade from 1870 to 1880 is not a pleasing one, but it must be remembered that in 1870 values were expressed in a currency which was at a discount in gold, and should be reduced about one-fifth for purposes of comparison with other census years.

As compared with various Western and Southern states, where manufacturing is in its infancy, Vermont would appear to be progressing slowly indeed, but a comparison with states where like conditions exist is decidedly to the advantage of the Green Mountain state. As indicated above, the value of Vermont's manufactured products increased 22.5 percent during the five years ending in 1905, while in Rhode Island, purely a manufacturing state, the percent of increase was 22.1. In New Hampshire, 18.5; in Connecticut, 17.1; and in the city of Boston, 13.3. The statistics for Massachusetts are not yet ready for publication, but it is believed that the percent of increase for the whole state will not be greater than in Boston. Comparisons with states where like conditions exist in 1900 the average of every year in the manufacturing industries in Vermont was \$405.50, while in 1905 the average had increased to \$459.63.

The summary designates as the four leading industries of Vermont the following: Cheese, butter and condensed milk; lumber; marble and stone work; woolen goods. These comprise nearly one-half of the value of the entire manufactured product of the state, or to be exact, \$30,024,361, out of the total of \$62,658,711, as given by the census report. Following are the figures for the four industries, with comparisons for the years 1900 and 1905.

## Marble and Stone Work.

Number of establishments, 1900, 281; 1905, 229; capital invested, 1900, \$5,

\$69,857; 1905, \$14,467,355; salaried officials, 1900, 311; 1905, 384. Salaries, 1900, \$201,834; 1905, \$19,976. Wage earners, 1900, 608; 1905, 8,097. Wages, 1900, \$2,650,117; 1905, \$4,455,015. Miscellaneous expenses, 1900, \$446,769; 1905, \$566,703. Cost of materials used, 1900, \$1,815,982; 1905, \$2,010,385. Value of products, 1900, \$6,580,414; 1905, \$9,570,430.

## Lumber.

Number of establishments, 1900, 543; 1905, 469; capital invested, 1900, \$7,052,313; 1905, \$7,506,478. Salaried officials, 1900, 143; 1905, 148. Salaries, 1900, \$108,756; 1905, \$137,459. Wage earners, 1900, 6,126; 1905, 5,304; wages, 1900, \$1,930,752; 1905, \$2,239,377. Miscellaneous expenses, 1900, \$325,821; 1905, \$505,865. Cost of materials used, 1900, \$4,425,976; 1905, \$4,359,663. Value of products, 1900, \$8,539,191; 1905, \$8,965,558.

## Cheese, Butter and Condensed Milk.

Number of establishments, 1900, 223; 1905, 221. Capital invested, 1900, \$1,222,892; 1905, \$1,219,237. Salaried officials, 1900, 137; 1905, 137. Salaries, 1900, \$37,514; 1905, \$34,343. Wage earners, 1900, 523; 1905, 472. Wages, 1900, \$236,377; 1905, \$243,563. Miscellaneous expenses, 1900, \$66,993; 1905, \$110,707; cost of materials used, 1900, \$4,855,283; 1905, \$6,125,167. Value of products, 1900, \$5,656,265; 1905, \$6,786,963.

## Woolen Goods.

Number of establishments, 1900, 23; 1905, 17. Capital invested, 1900, \$3,001,547; 1905, \$5,538,649. Salaried officials, 1900, 51; 1905, 98. Salaries, 1900, \$70,905; 1905, \$132,600. Wage earners, 1900, 1,484; 1905, 2,325. Wages, 1900, \$577,049; 1905, \$922,825. Miscellaneous expenses, 1900, \$98,841; 1905, \$158,379. Cost of materials used, 1900, \$1,554,525; 1905, \$2,794,111. Value of products, 1900, \$2,372,448; 1905, \$4,698,402.

ZERO TEMPERATURE  
IN NINETEEN YEARSOnly Once Has the Last Zero Night  
Come So Late in the Season as  
This Year—Records Kept by  
A. D. Morse of This City.

For nineteen years A. D. Morse has kept the record of the last zero night in each year, and also the total number of zero nights for the sixteen years. In 1903 he was in California, so could not keep the record, but the figures for the other years make interesting reading. It will be noted by the appended figures that only once in the nineteen years has the thermometer gone to zero later in the winter than during this year. The latest zero weather is as follows:

1886, March 11, zero.  
1888, March 24, 4 below.  
1889, Feb. 26, 50 below.  
1890, March 30, 9 below.  
1891, March 8, 4 below.  
1892, March 22, 2 below.  
1893, March 19, 3 below.  
1894, Feb. 27, 6 below.  
1895, March 15, zero.  
1896, March 24, 12 below.  
1897, March 17, 4 below.  
1898, March 4, zero.  
1899, March 10, 2 below.  
1900, March 18, 9 below.  
1901, March 17, zero.  
1902, Feb. 23, zero.  
1903, March 5, 11 below.  
1904, March 14, 6 below.  
1905, March 25, 11 below.

The total number of zero nights for sixteen years are as follows: 1890, 14; 1891, 12; 1892, 25; 1893, 31; 1894, 25; 1895, 23; 1896, 31; 1897, 34; 1898, 29; 1899, 32; 1900, 20; 1901, 24; 1902, 29; 1903, 45; 1904, 53; 1905, 37. The average for sixteen years is 30 11-16. These figures are from a thermometer which registers very close to the government thermometer at Northfield.

## SAM'S LIVELY DUKES.

Got Him into Trouble Again in Montpelier—Bad in Court.

Montpelier, March 26.—Sam Wheeler has again used his fists in a lively fashion. For it he paid \$15 and costs of \$24 to the Montpelier court today. On Saturday night Wheeler started to "put it over" Bob Smith in the most approved Battling Nelson fashion. Sam was boring in hard when J. J. Glenny, in whose saloon the mill was taking place, objected. His employees came to his aid and the main punisher was expressed in the form of a right Office Revere came on the trot and received Wheeler into his arms and placed him in the jail. The spectators say that it was Wheeler's round in the mill, but Judge Harvey gave him a stiff blow in court.

The police were called to St. Paul street Saturday night and when they returned they had Ed. Mossey in tow. Mossey said it was his first offense of intoxication when arraigned in court today.

## CONDEMNED BY LABOR MEN.

Boston Union Council Gets After Massachusetts Senators.

Boston, March 26.—The action of the state senate on Friday, in killing the so-called overtime bill, a measure which would have prevented women and minors from working in manufacturing establishments between 6 p. m. and 6 a. m., was severely condemned at a meeting of twenty-eight unions of the Building Trades council of the state last night. The senate passed the bill on Thursday after it had received favorable action by the house, but on Friday reconsideration prevailed and the bill was killed. Four senators who voted for the bill Thursday were absent from their seats on Friday.

These four senators were particularly mentioned at the meeting of the council. Criticized at Lawrence. Lawrence, Mass., March 26.—The Central Labor union, a body which represents all the labor unions in the city, very pleasantly yesterday afternoon criticized the Massachusetts state senators who defeated the overtime bill. The resolutions contained a clause requesting the governor to do all in his power to have passed some measure similar to the overtime bill.

A MURDER  
IN PRISONGuard in Missouri Peniten-  
tiary Killed By Convict.

## BEING STABBED TO DEATH

"Sunny" Anderson, the Murderer, Was  
Shot, But Not Until After He  
Had Injured Two Men Who  
Tried to Save Wood.

Jefferson City, Mo., March 26.—Two men dead and two men injured are the result of a battle with an insane negro convict at the penitentiary this morning. The dead are James Wood, guard, and "Sunny" Anderson, his murderer. Two other convicts, who tried to save Wood, were severely stabbed by Anderson. When the prisoners were being released for breakfast Anderson jumped on Wood and stabbed him to death. The guards fired on Anderson, killing him after he had stabbed two others.

## NEW YORK TRAGEDY.

French Waitress Shot by Her Lover in  
That City.

New York, March 26.—Louise French, a pretty French waitress employed at her father's restaurant on West 38th street, was shot this morning by a former waiter at the place, known as "Victor."

The girl is not expected to live. After the shooting of the girl, "Victor" sent a bullet into his own brain, dying almost immediately. Unrequited love was the cause of the tragedy.

## LESTER GREENE TO TALK.

Will Defend Patent Medicines at a  
Club.

Montpelier, March 26.—The meeting of the Club Saturday evening was with E. M. Goddard at his home on Father Terrace. The Hon. Joseph A. DeBoer, president of the club, was given a cordial welcome on his return from an extended western trip in the interests of the National Life Insurance company. A paper on "What Montpelier People Expect of a Newspaper" was read by E. M. Goddard, followed by discussion. The club will meet next Saturday evening with C. D. Mather on Baldwin street. Lester H. Greene will read a paper on "Patent Medicines," taking issue with recent statements in Collier's Weekly and the Ladies' Home Journal.

NEIGHBORLY CALLS  
BY POLICE OFFICERS

Antonio Abbiatti's House Gave Up Two  
Barrels of Beer, Six Quarts of  
Whiskey and Four of Wine—One  
Man Gets Two Calls in a Day.

An early evening call was made on Saturday at 6 o'clock by one member of the sheriff's department, H. D. Camp, and three members of the city police, Chief Brown, Officer Carle and special Charles Johnson, at the house of Antonio Abbiatti on Ladd street. It was considerable of a surprise party to the occupants who were not quite ready to receive official visitors, apparently. In the cellar the officers found one half barrel, full of beer, and another half barrel, partly full of the same stuff. In the kitchen and pantry they found six quarts of whiskey and four quarts of wine. The liquors were seized and taken to the City Hall basement. Abbiatti's case was continued until this morning, bail in the amount of \$850 being furnished.

In city court today the liquor was condemned and order spilled. To the charge of keeping Abbiatti pleaded guilty and was fined the usual \$300 with the costs added. Abbiatti paid. The police became so neighborly to a certain resident of Addison street that they made two raids Saturday, once in the afternoon and again in the evening. On neither occasion was there anything in the liquid refreshment line found.

## WHOSE WINE IS THIS?

Two Gallons Picked Up in the Road—  
Rumors of Accident.

Two gallons of wine are in the hands of the police, and the owner is not known. The reason is this. Last evening at 9 o'clock a telephone message reached the police headquarters that a horse had run away and deposited a man in the road, near the city farm. The message stated that the man probably had a broken leg. Two officers drove to the place. They found neither team nor man. But resting moodily in the snow was the leg of wine, surrounded by mule witnesses of what must have been a terrible accident. The bottles were empty. They had one contained whiskey and beer. What had become of the team and its driver the police could not ascertain, but believing that the jug of wine was better placed in the "cooler" than in the hands of whoever might find it, they carefully placed it in their team and brought it down.

## Surprised Orange Couple.

A party of relatives and friends from Barre went to Orange Saturday evening and called at the home of Mrs. Almira Curtis to remind her that it was her 64th birthday. The evening was spent very pleasantly with music on the phonograph. At 11 o'clock the party sat down to a baked bean supper. Mrs. Curtis was the recipient of many presents, one being a sum of money. At midnight the party broke up, all wishing her a great many more birthdays.

## JOHN MILTON'S FUNERAL.

Presbyterian Church Filled to Overflow-  
ing Yesterday.

The funeral of the late John Milton was held from the Presbyterian church yesterday afternoon at two o'clock, the Rev. F. A. Fox of the Congregational church officiating.

The church was filled to overflowing with the fraternal brothers, relatives and other friends of the deceased. The members of Operative lodge, No. 150, of the Masons; Iroquois Tribe, No. 16, of the Red Men; Capital City Circle of Eagles; Clan Gordon, and the Burns club attended in bodies. The service was a very impressive one, it being in charge of the various fraternities. The pall bearers were James R. Coutts, for Operative lodge, No. 150; James Elrick, for Iroquois Tribe, No. 116, Red Men; A. J. Guthrie for F. O. E., Capital City Circle; Robert Inglis for Clan Gordon, No. 18; John McLennan, Granite Cutters' National Union; Alexander Cruickshank, for the Burns club. The interment was in Hope cemetery. The many beautiful floral tributes were as follows:

Wreath, Operative lodge, No. 150; pillow, Iroquois Tribe, No. 16, Red Men; Anchor, F. O. E., Capital City Circle, No. 1256; wreath, Clan Gordon; lyre, Burns club; pillow of roses, family; roses in roses, Mr. and Mrs. Thomas Sheriffs, Mr. and Mrs. Robert Inglis, Mr. and Mrs. Alex. Cruickshank, Mrs. Alex. Stephens, Mr. and Mrs. John Henry, Peter Cassidy, Mr. and Mrs. Ernest Rice; hyacinths, Mr. and Mrs. Wildgoose, Mr. and Mrs. Peterson; hyacinths, Mr. and Mrs. W. T. Calder; hyacinths, Mr. and Mrs. C. Taylor; hyacinths, Mrs. John Middlebrook, Mrs. Harry Houghton; cross, employees of C. W. McMillan & Son; calla lilies, Mr. and Mrs. Ernest Rice; hyacinths, George Troup; carnations, the neighbors; carnations, Mr. and Mrs. Corli, Mr. and Mrs. Riddle and Jennie, Miss Kate Stewart, Mr. and Mrs. Thomas Kesson, Mr. and Mrs. J. K. Pirie, Mr. and Mrs. Alex. Smith, Ladies of Clan Gordon, Mr. and Mrs. James Coutts, Mr. and Mrs. John Henry, Peter Cassidy, Mr. and Mrs. A. U. Stephen, James T. Johnston, Mr. and Mrs. Kessock, Mr. and Mrs. Anderson, Mr. and Mrs. William Stephen, Mr. and Mrs. James Elrick, Mrs. Alexander Reid, Mr. and Mrs. William Riddle, Mr. and Mrs. Birnie.

## MOSES DUPREY'S FUNERAL.

Held Yesterday Afternoon from St. Monica's Church.

The funeral services of Moses Duprey were from St. Monica's church at two o'clock yesterday afternoon, the Rev. P. M. McKenna officiating. There was a very large attendance of friends, and the Catholic Order of Foresters, of which the deceased was a member, attended in a body. The floral tributes were many and very beautiful. The interment was in the Catholic cemetery.

## DEATH OF HARRY MACKINTOSH.

Had Been Sick for Several Months With  
Tuberculosis.

Harry Mackintosh, a popular young fellow of this city, passed away yesterday morning at 9 o'clock, at the home of his mother, Mrs. Mary Mackintosh, after an illness of several months with tuberculosis. He leaves a wide circle of friends. He was born in Ohio 18 years ago. Previous to his last sickness he was employed by the Barre Laundry as driver, and before taking that position he attended school in the Spaulding building. The funeral arrangements have not been completed.

## DEATH OF YOUNG WOMAN.

Mrs. Luther Hight of West Topham  
Died This Morning.

West Topham, March 26.—Mrs. Luther Hight, wife of Postmaster Hight, died this morning at 4 o'clock, leaving a little child only a few hours old, a husband, her mother and sister. The deceased was the daughter of the late P. P. Cunningham. The young woman was 23 years of age and was very popular in this community, where she had always lived. Funeral services will be held Wednesday afternoon at one o'clock.

## DIFFICULT TEAMING FEAT.

William Minard Does the Serpentine Act  
Nicely.

William B. Minard, the veteran teamster, with a six-horse team of elegant grey horses belonging to H. C. Leonard this morning performed one of the most difficult stunts seen in this city in the way of teaming for a long time. Minard was in charge of a 12-horse team drawing a large sled load of granite to the Vermont Granite company's plant. When the Central Vermont tracks were reached six horses had to be detached from the team, owing to the fact that freight cars were left on the three tracks in such a way that a team had to wind back and forth through the narrow openings called crossings. The tracks were entirely void of snow, and it was a difficult pull for even 12 horses and with only six bystanders said it would be impossible for Driver Minard to get across.

He had seen difficult teaming from Barre hill before, however, and he tackled it. He got across the first track all right, but in trying to pass the train of cars he brought up directly against the next one. Nothing daunted, he turned his horses directly down the space between the two tracks parallel with them, got his sled in front of the opening between the cars and then his team, in a pretty intelligent thing, with the help of the driver. The lead horses doubled right back on the second team and even rubbed against a freight car in order to get by it; the second team turned just a little less, but
